

# WEE SING AND LEARN DINOSAURS

## (Song lyrics)

### DINOSAURS

#### CHORUS

Dinosaurs, dinosaurs,  
Dinosaurs, dinosaurs,  
Dinosaurs, dinosaurs,  
Oh, millions and millions of years ago, dinosaurs roamed the earth.

#### VERSE

Some dinosaurs were small and fast and some were big and slow,  
Some dinosaurs walked all alone, and some in herds, we know,  
Some dinosaurs ate only meat and some ate plants, it's true.  
Some dinosaurs were very fierce and some were peaceful, too.

#### REPEAT CHORUS

#### TAG

Millions and millions and millions and millions and millions and millions of years ago,  
Dinosaurs roamed the earth.

### MAIASAURA

Maiasaura made a nest of mud,  
Maiasaura made a nest of mud,  
Then she laid her eggs.

Maiasaura watched the babies hatch,  
Maiasaura watched the babies hatch,  
Maiasaura watched the babies hatch,  
Then she fed them all.

Maiasaura took care of her young,  
Maiasaura took care of her young,  
Maiasaura took care of her young,  
Then they left the nest.

#### TAG

Then they left the nest.

## **WHAT HAPPENED?**

What happened? What happened?  
The dinosaur's extinct!  
What happened? What happened?  
Let's really try to think.  
Too cold? Too hot?  
Some changes in the weather?  
No sun? No food?  
A lack of fur or feather?  
What happened? What happened?  
A theory comes and goes.  
What happened? What happened?  
The truth is no one knows!
