

# WEE SING AND LEARN BUGS

## (Song Lyrics)

### **BUGS, BUGS**

(Tune: Skidamarink)

Bugs, bugs, I love bugs,  
Yes, I do,  
Bugs, bugs, I love bugs,  
They're my friends, too,  
I love them when they're crawling and when they're hopping, too,  
I love them when they're creeping and flying, yes, it's true,  
Oh, bugs, bugs, I love bugs,  
Yes, I do.

Bugs, bugs, I love bugs,  
Yes, I do,  
Bugs, bugs, I love bugs,  
They're my friends, too,  
I love them when they're buzzing, and when they're chirping, too,  
I love them when they're humming, and quiet, yes, it's true,  
Oh, bugs, bugs, I love bugs,  
Yes, I do.

### **LADYBUGS**

Ladybugs are beetles with spots on their backs,  
They are different colors, but I like red and black.  
They crawl around the flowers and on the leaves of trees,  
They fly up into the air and sometimes land on me.

REPEAT WITH DESCANT

DESCANT

Ladybugs, ladybugs,  
Ladybugs, ladybugs,  
Ladybugs, ladybugs,  
Ladybugs, ladybugs.

## **SHOO, FLY**

(Tune: Shoo, Fly)

### CHORUS

Shoo, fly, don't bother me,  
Shoo, fly, don't bother me,  
Shoo, fly, don't bother me,  
Please, oh, please don't bother me.

### VERSE

The little fly is buzzing,  
He's buzzing all around,  
And then he stops to take a walk,  
Look! He's upside down!

### REPEAT CHORUS

## **GRASSHOPPER**

(Tune: Battle Hymn)

The green grasshopper has strong legs for jumping high and far,  
Oh, the green grasshopper has strong legs for jumping high and far,  
The green grasshopper has strong legs for jumping high and far,  
And he jumps until he finds some food.

### REPEAT

## **SPIN, SPIDER, SPIN**

Spin, spider, spin, spin your spider web,  
Spin, spider, spin, spin your spider web.  
You wait, then ZAP, a bug flies in the trap,  
Spin, spider, spin, spin your spider web.

### REPEAT

## **HONEYBEE**

Honeybee, honeybee, where do you fly?  
I fly to find nectar to take to the hive,  
Honeybee, honeybee, what will you do?  
I'll make some sweet honey for me and for you.

REPEAT

## **ANTS**

(Tune: Ants Go Marching)

The ants all live together in a colony,  
The ants all live together in a colony,  
The ants all live together, the workers, males, and queen,  
And they all do their jobs because they are a team.

REPEAT

## **DRAGONFLIES**

Dragonflies flying, dragonflies flying,  
Flying on four pretty wings,  
Shimmering, glimmering, shimmering, glimmering,  
They are such beautiful things,  
Zipping and zooming, then hovering,  
Twisting and turning, then hovering,  
Dragonflies flying, dragonflies flying,  
Flying on four pretty wings.

REPEAT LAST FOUR LINES

## **CRICKET**

Cri-cri-cri-cri-cricket, I love to hear you sing,  
Cri-cri-cri-cri-cricket, just rub your little wings.  
When it's night you make sweet sounds,  
    then for food you jump around,  
Cri-cri-cri-cri-cricket, I love to hear you sing.

## THE LITTLE CATERPILLAR

The little caterpillar inched his way across the branch,

Nibbling leaves along the way,

He looked up in the sky and saw a pretty butterfly,

And he knew that he would fly some day.

The little caterpillar formed a cozy little shell,

Then curled up with a sleepy sigh.

He dreamed sweet dreams of butterflies

and knew that someday soon

He’d be flying high up in the sky.

## BUTTERFLY

Flitting and flying among the flowers,

Beautiful butterfly,

Drinking sweet nectar for hours and hours,

Beautiful butterfly.

## CHORUS

Fly away, butterfly,

Wish you’d stay, butterfly,

But I know, butterfly,

You must go, butterfly.

REPEAT VERSE AND CHORUS

## **FIREFLIES**

(Tune: Dry Bones)

The little flashing lights at night are fireflies,  
The little flashing lights at night are fireflies,  
The little flashing lights at night are fireflies  
In the air and on the ground.

The males fly in the air and flash a signal,  
The males fly in the air and flash a signal,  
The males fly in the air and flash a signal,  
And the females on the ground flash back.

REPEAT FIRST VERSE

## **OH, I LOVE TO LOOK AT BUGS**

(Tune: Did You Ever See A Lassie)

Oh, I love to look at bugs, bugs, bugs,  
Oh, I love to look at bugs, colorful bugs.  
There are ladybugs and flies  
    and grasshoppers and spiders  
And honeybees and ants  
    and mosquitos and caterpillars  
And butterflies and fireflies,  
Oh, I love to look at bugs, colorful bugs.
